Production cost of Urea

1175. SHRI SHANKER SINH VAGHELA: Will the Minister of AGRICULTURE be pleased to state:

(a) whether Government's attention has been drawn to the news report which appeared in the SUNDAY, of December 14, 1986 to the effect that Urea produced abroad at the rate of about Rs. 1500-2000 p.m.t. inclusive of profits, whereas in India, the rate is about Rs. 3000-4000 p.m.t.; and

(b) if so, the steps taken to bring down the production costs to a matching level?

THE MINISTER OF STATE IN THE DEPARTMENT OF FERTILIZERS IN THE MINISTRY OF AGRICULTURE (SHRI R. PRABHU): (a) and (b) Yes, Sir. The cost of production of Urea in India is higher than the cost at which it is produced abroad. Although, fertilizer production units are taking steps to reduce production costs by achieving efficiencies in consumption of feedstock and inputs, it is not feasible to bring the costs down to a matching level so long as the cost of equipment as well as feedstock inputs used by fertilizer plants in India are higher than in countries abroad.
